Hiring Manager
Comcast
6255 Roswell Rd
Atlanta, GA
30328

Dear Hiring Manager,

I am writing to express my strong interest in the Information Technology Intern position focused on Data Science in the Summer of 2024 at Comcast. As a senior at the Georgia Institute of Technology, majoring in Computer Science with a strong academic record and practical experience, I have honed my analytical, problem-solving, and communication skills. My coursework has equipped me with the technical proficiency to work with data and derive actionable insights. I will be continuing my education at Georgia Tech by pursuing a Master's in Machine Learning beginning January 2024.

During my college journey, I actively engaged in various experiences that have shaped my skills and abilities. One pivotal point was my internship at Hueman People Solutions, where I honed my data analysis skills and effectively conveyed complex insights to both management and stakeholders by designing PowerBI dashboards. Notably, I achieved a remarkable 95% accuracy rate in the development of machine learning models for fake news detection, a project that involved processing extensive textual datasets and implementing supervised learning models, showcasing my proficiency in handling data-driven tasks. Furthermore, my role as Vice President of Finance for the Georgia Tech International Ambassadors provided me with valuable experience in managing finances and orchestrating events, which contributed to the enhancement of my organizational and leadership capabilities. Given my technical proficiency, and experience in data analysis, and machine learning, my qualifications align well with the requirements of the position. Additionally, my strong work ethic and ability to work both independently and collaboratively position me as a valuable asset.

I am excited about the opportunity to work with Comcast, and I believe that my technical and analytical skills, along with my dedication to continuous learning, will enable me to make meaningful contributions. I am eager to learn from your team of professionals, gain exposure to senior executives, and build a valuable network supporting my growth in the field. Thank you for considering my application.

Sincerely,
Landon Wilson
